

- ① Detach flat lid from ceiling bracket by pressing firmly.

Mount fixture to ceiling by inserting screws into slots and into junction box as shown.

If on ceiling: use appropriate screws for ceiling type (screws by others).

- ② Connect wires based on wiring diagram (refer to appropriate wiring diagram page).

Tuck connectors in junction box thru oblong openings.

Fixture Weight: 16 lbs

Risk of fire and electrical shock.
Disconnect power at electrical panel before servicing.
Fixture must be installed by a qualified electrician only in accordance with national, local building and electrical codes.

NOTES:

Do not energize luminaire until installation is completed.
General contractor is responsible for providing appropriate anchoring devices to support load of fixture.
Please call customer service for any questions.

- ④ Install flat lid by lifting and pressing against magnets.

Risk of fire and electrical shock.
Disconnect power at electrical panel before servicing.
Fixture must be installed by a qualified electrician only in accordance with national, local building and electrical codes.

NOTES:

Do not energize luminaire until installation is completed.
General contractor is responsible for providing appropriate anchoring devices to support load of fixture.
Please call customer service for any questions.

WIRING DIAGRAM

10% Dimming or better.
0-10V - 4 wire dimming - Constant
Current Reduction (CCR) or PWM.
Dimming signal via two low voltage
dimming control wires.
Versatile and stable over long runs -
maximum circuit loading.

Risk of fire and electrical shock.
Disconnect power at electrical panel before servicing.
Fixture must be installed by a qualified electrician only in
accordance with national, local building and electrical codes.

NOTES:

Do not energize luminaire until installation is completed.
General contractor is responsible for providing
appropriate anchoring devices to support load of fixture.
Please call customer service for any questions.
